

Supporting Local Small, Medium, and Micro Enterprises (SMMEs)

We understand the significance of supporting local SMMEs and actively developing collaboration with these businesses. Drawing on our extensive experience, we ensure these partnerships align with the scope of work, adhere to project timelines, and remain within budgetary constraints.

The Bidvest Prestige Sustainable Commitments

Over recent years, sustainability has emerged as the core of our resilience. The Bidvest ESG Framework is a culmination of our sustainability ambitions, focused on areas where we can make the most significant difference with specified targets and metrics. Out of the 17 Sustainable Development Goals (SDGs), we have concentrated our efforts on 14 of them.

At Bidvest Prestige, we understand the importance of our role in representing not only our own brand but also the brands of our valued clients. Our staff is thoroughly trained to uphold the highest standards of professionalism and service excellence, ensuring that every interaction reflects positively on both

Bidvest Prestige and our clients' brands. We take pride in being ambassadors for our clients, delivering exceptional service that aligns with their values and enhances their reputation.

Mining Cleaning Solution

People-focused, service-driven cleaning solutions

Bidvest Prestige

Your Trusted Partner in Mining Cleaning Solutions

At Bidvest Prestige, we recognise that the mining industry operates in a fast-paced and demanding environment, where maintaining a clean and safe work environment can be a significant challenge. With years of experience in the sector, Bidvest Mining Cleaning Solutions has become the trusted partner for mining operations, offering specialised cleaning services tailored to the unique needs of the industry.

Our People

The Heart of Our Success

What truly sets us apart is our people. To ensure they can consistently deliver their best at our clients' mining operations, we prioritise creating a supportive and empowering environment. We invest significant time, resources, and effort into providing comprehensive training, ensuring our team members are fully equipped to meet the specific needs of your organisation. Our commitment to excellence, combined with locally recruited, highly trained personnel and state-of-the-art resources, ensures that your mining operations run smoothly, remain compliant with safety regulations, and foster a healthy and productive work environment.

Seamless Integration with Your Operations

We recognise that uninterrupted operations are critical. That's why we provide cleaning solutions that integrate seamlessly with your mining activities. Whether it's the change houses or the most remote areas of the site, Bidvest Prestige is ready to meet your cleaning needs with efficiency and expertise.

Industrial-Grade Cleaning Solutions

We tackle the toughest dirt and dust with industrial-grade solutions that combine the right cleaning products, machinery, and skilled personnel. From change houses to showers, basins, toilets, and communal areas, we ensure that your facilities are spotless and ready for each shift.

*People matter.
they are the most important
part of life and our
business.*

Non-contractual Cleaning Services

We are skilled at providing ad hoc or non-contractual cleaning services to our mining clients. This includes but is not limited to deep cleaning of ablation cleaning, high access cleaning, post construction or post maintenance cleaning, carpet cleaning, truck washing and vehicle washing and the very in demand underground toilet hire.

Comprehensive Cleaning for Every Area

Whether it's kitchens, canteens, rest areas, walkways, hostels, or gardens, Bidvest Prestige leaves no stone unturned in maintaining a hygienic, organised, and safe mining environment.

Commitment to Excellence and Accreditation

At Bidvest Prestige, we are dedicated to achieving the highest standards of service, a commitment reflected in our various ISO accreditations.

Innovation & Technology

Bidvest Prestige has been a leader in advancing cleaning solutions across various industries for over five decades, and our commitment to progress persists. We remain industry pioneers, continuously adapting and integrating solutions as needed. This ongoing innovation enables us to deliver cleaner, safer, and healthier environments for our clients, seamlessly integrating into your business model. This ensures you can stay focused on your core business activities.

Host Community Engagement and Business Support

At Bidvest Prestige, we recognise the importance of nurturing positive relationships with the communities in which mining organisations operate. These relationships are fundamental to both sustainable development and the long-term success of mining operations. The following highlights our understanding and approach to building strong, mutually beneficial community ties:

- **A Community-Centric Approach** - At the heart of our ethos is a community-focused approach, focused on recruiting our workforce directly from the local community. This commitment not only ensures a skilled and dedicated labour force but also contributes to the upliftment of the community, driving long-term growth and sustainability.
- **Community Engagement** - Building trust and addressing community concerns effectively
- **Economic Empowerment** - Contributing significantly to the local economy, enhancing their social license to operate.
- **Sustainability Initiatives** - Implementing sustainable practices to minimise environmental impact, including waste management systems, rehabilitation efforts post-mining, and educational resources on environmental stewardship.
- **Conflict Mitigation** - Regular open dialogue enables us to understand and address community issues, promoting harmony.
- **Community Development Projects** - Investments in infrastructure, healthcare, and education contribute to the overall well-being of host communities.
